FIG. 1B

FIG. 2B

FIG. 3B

FIG. 1A is a cross-sectional view of a multi-layered material. The central layer is labeled 10 and contains diagonal hatching. It is flanked by two thinner layers, with the top one labeled 12 and the bottom one labeled 14. The entire assembly is bounded by a top layer labeled 16 and a bottom layer labeled 18. The layers are separated by wavy lines indicating interfaces.

FIG. 2D

FIG. 3D

FIG. 1D is a cross-sectional view of a device 10. The device has a main body with diagonal hatching. A thin layer 26 is on the top surface, and a thin layer 28 is on the bottom surface. The device has a stepped profile on the right side.

FIG. 30

FIG. 10 is a cross-sectional view of a mechanical assembly. It shows a base layer 76 with a top layer 74. A central component 46 is mounted on the base. To the left, a component 70 is shown with a sub-component 54. A downward arrow 62 points to a feature 78. A component 14 is shown on the right side of the base.

FIG. 4
